Fahad Tariq Aziz

Software Engineer

👤 Profile

Skilled in Web Dev and inter-communication. I have gained a strong foundation in languages such as JavaScript, React, Next JS, Nodejs, React Native, Nest JS , Express JS. Also experience with Agile Methodologies and working in sprints.

💼 Employment History

Software Engineer at CodingCops
July 2024 — Present

- Developed expertise in software development, code reviews, debugging, and managing JIRA tickets. Worked on a highly secure project using a client-provided Mac machine for development, addressing and resolving comments following PR reviews.

- Recently working on App named Purpose where all LLM Models integrated with their cost and temperature and custom prompts. Use memory structure memo and use raindrop for AI response tracking, already build beta version app and now working on production app.

Associate Software Engineer at TacTech
January 2023 — July 2023

- Refined expertise in technologies including React.js, JavaScript, and backend frameworks such as Express and Node.js, as well as CSS frameworks like Tailwind CSS and Material UI.

Web Development Intern at TCP Software
June 2022 — September 2022

- Collaborated with professionals to contribute to the development and implementation of web projects, enhancing my skills in React, HTML, CSS, JavaScript, and backend frameworks like Node.js.

🎓 Education

Bachelor of Science in Software Engineering, Comsats University Islamabad, Lahore Campus.
CGPA: 3.41 (2020-2024)

📊 Courses

- Career Essentials in Generative AI by Microsoft And LinkedIn

- React and Redux Certification Test

- SQL Intermediate Certification from HackerRank

- HTML, CSS, JavaScript for Web Developers, 10Pearls University

📊 Projects

- Developed a help ticket feature from scratch in Genuity project, where creation of ticket and ticket show page contains all tickets related to multiple workspaces of companies for review and address the issues.
